## CONFIDENCE HYPNOTHERAPY OFFER

i am looking for one amazing lady who hasn't experienced hypnotherapy with me to offer a personal (virtual) session focused on confidence. Is it you!? Read below to learn more.

## DID YOU KNOW?

Did you know, the root chakra has the ability to impact how much money you have... or don't have? That's right! Fascinatingly enough, when I work with clients, I find that they spend a great deal of time working on their Third Eye and Crown Chakras. We love the feeling of connection to the spiritual realm, of course, but in actuality, it is just as important to ground to the Earth, especially if we want to hit the lotto! The root chakra governs our sense of safety and security, which correlates in many instances to our feelings of abundance or scarcity. What we vibrate, we attract. So, if you're feeling worried about money, go sit your bear ass directly on the ground while you get in touch with your primal instincts by howling "SHOW ME THE MONEY!" Okay, maybe not (unless of course that feels delightful). But definitely pay attention to this important chakra, and join us for our "Let Go with Ease" event on February 20th to find out more!

## YOU'RE INVITED TO JOIN US FOR "LET GO WITH EASE" - ELEVATION EXPERIENCE

**When:** February 20, 2021

**Where:** Online Zoom Event

**Event Price:** \$25

In this interactive event, we will focus on "Letting Go" by exploring the 1st chakra (aka root chakra). The root chakra often carries primal/heavy/dense/grounded information related to survival. Fear of being alone, fear of dying, fears of "not making it," or financial insecurity are pretty common causes for Root Chakra pathologies. We'll do this by using crystals, aromatherapies, and meditative hypnosis session before ending our event with Intuitive Energy Readings using oracle cards that will guide you in whatever topic you are currently focused on!

### Two options to choose from to attend this event.

1. **Participation Ticket** (you will be mailed a guide in case you would like to gather the items that are included in the kit. You will also receive a reading (first come, first served) and the event's recording after.

## INTUITIVE NEWS WITH ANGIE

If you missed December's Intuitive News, we were reminded that structures and 'plans' would continue to fall away at a rapid pace, and that those around us who were not typically compassionate or

kind might appear more emotional to you. Did you find this to be true? Are you noticing it now? We were asked to be patient and extend a great deal more compassion than we ordinarily would, and push against nothing. We were asked to shine our beautiful and brilliant light, as bright as the Christmas Star during that time. This is still true of course.

However, this month, the message of illumination is in regard to the vision that is now or will be soon, erupting within you. You've come too far. You know too much. What was once obscured will come into clarity if it hasn't already. However, you may need to rest a great deal more than you typically allow, to prepare the foundation for what you will bring to life in the 'spring'. Just as our animals know that there is a time for hibernation, we too are being encouraged to rest and restore as indicated by our bodies which are now acclimating to new energies. If you are feeling anxious or restless, remember to ground into the lower half of your body and be present in this calm, uneventful, delicious moment. Imagine the beautiful flower bud under the surface of the soil, soaking up all the nutrients and growing its roots firmly into the earth. Trust that your emergence has already begun, so rest now as we acclimate to the new energies of this age of Aquarius, and when the conditions are right... the soil soft enough for you to fully emerge, trust and know that you will bloom spectacularly.
